SUMMARY

A dedicated Information Technology fresh graduate with a strong foundation in project management, software development, web development, and game design. I aim to apply my technical and leadership skills in a real-world setting, and I am open to roles across the software development spectrum including quality assurance and business analysis, while further developing my teamwork, communication, and problem-solving abilities.

WORK EXPERIENCE

People Partners INC. (Intern) IT Support

IBM Plaza, Eastwood, Quezon City
Aug 2025 – Dec 2025

- Deployed and configured an average of 3-5 laptops, modems, and workstations per week for onboarding employees, ensuring all devices were secured and operational upon deployment.
- Tracked 100+ employees' activity and idle time via endpoint monitoring tools while maintaining an inventory of 1,000+ IT assets to support productivity oversight and compliance.
- Provided hands-on IT support to onsite and remote employees, resolving 10+ hardware and software issues with an average resolution time of under 20 minutes, minimizing disruptions to business operations.

PROJECTS

Rumini: A Web-based Counseling Management with an Android-based Mood Tracking for Students of Pamantasan ng Lungsod ng Valenzuela (Capstone) Role: Project Manager/ Technical

Jan 2025 – Apr 2026

- Spearheaded project planning and task delegation for a 4-member team across 3 semesters using Agile methodology, ensuring timely delivery of all project milestones.
- Developed 4 core modules (Appointment Request, Mood Tracker, User Management, and Form Analytics) for a counseling system serving 100 students, 2 counselors, and 1 admin, achieving a 3.77 out of 5 ISO 25010 quality rating across all user groups.
- Represented the IT department at the CEIT Research Colloquium, competing against 8 other teams from CE, EE, and IT departments, and earned 3rd Place Best Presentation.

BokaDex (Commission Game)

Jan 2026 – Mar 2026

Role: Freelance Game Developer

- Engineered a top-down RPG Android mobile game with a turn-based battle system targeting word association skills, contributing to the client group's 2nd Place finish in their department.
- Developed a companion teacher application connected to a shared database, enabling real-time monitoring and tracking of student gameplay data.
- Designed 16 in-game maps using multi-layered tile mapping, creating dynamic and visually structured game environments.

Easy tickIT (Web-System)

Jan 2025 - May 2025

Role: Front-end Lead

- Designed the complete UI/UX of the website covering all key pages, delivering a consistent and user-friendly interface across the entire platform.
- Led front-end development by translating UI/UX designs into a fully functional website, ensuring visual consistency and smooth user experience across all pages.
- Conducted quality assurance testing on the system, identifying and resolving issues to ensure the final product met functional and design standards before deployment.

The Last Chapter (Game)

Nov 2024 – Dec 2024

Role: Project Manager/ Developer

- Spearheaded task delegation and quality checks for a 7-member team, ensuring consistent output across all deliverables and earning the People's Choice Award among 15+ competing games at GameCon.
- Directed the entire game mechanics concept and real video footage used as visual assets, establishing the creative foundation and visual identity of the game.
- Developed 6 core game scenes including the Menu, Tutorial, three monster encounters, and Game Over sequence, delivering a complete and playable game experience.

SKILLS

Technical Skills: UI/UX Prototyping (Figma); Database Skills (MySQL & Firebase); Application Development (Flutter & Dart); Web Development (HTML, CSS, JavaScript and PHP); Game Development (Unity); Basic 3d Modeling(Blender); Project Management(Jira); Other Programming Language (C# & Java).

Interpersonal: Problem Solving; Teamwork; Communication; Attention to Details; Time Management; Adaptability.

EDUCATION & CERTIFICATIONS

Pamantasan ng Lungsod ng Valenzuela (College)
