SUMMARY

A dedicated Information Technology fresh graduate with a strong foundation in project management, software development, web development, and game design. I aim to apply my technical and leadership skills in a real-world setting, and I am open to roles across the software development spectrum including quality assurance and project management, while further developing my teamwork, communication, and problem-solving abilities.

WORK EXPERIENCE

People Partners INC. (Intern)

IBM Plaza, Eastwood, Quezon City

IT Support

August 2025 – December 2025

- Deployed and configured an average of 3-5 laptops, modems, and workstations per week for onboarding employees, ensuring all devices were secured and operational upon deployment.
- Tracked 100+ employees' activity and idle time via endpoint monitoring tools while maintaining an inventory of 1,000+ IT assets to support productivity oversight and compliance.
- Provided hands-on IT support to onsite and remote employees, resolving 10+ hardware and software issues with an average resolution time of under 20 minutes, minimizing disruptions to business operations.

PROJECTS

Rumini 2.0: AI/NLP-Based Chatbot Enhancement for a Counseling Management and Mood Tracking System at Pamantasan ng Lungsod ng Valenzuela (Capstone)

January 2025 – April 2026

Role: Project Manager/ Technical

- Spearheaded project planning and task delegation for a 4-member team across 3 semesters using Agile methodology, ensuring timely delivery of all project milestones.
- Engineered an NLP-driven conversational assistant to replace the platform's rule-based chatbot, delivering natural English, Tagalog, and Taglish conversation with retrieval-grounded responses and a crisis-safety detection layer, eliminating the rigid keyword-matching limitations of the legacy system.
- Represented the IT department at the CEIT Research Colloquium, competing against 8 other teams from CE, EE, and IT departments, and earned 3rd Place Best Presentation.

BokaDex (Game)

January 2026 – March 2026

Role: Freelance Solo - Game Developer

- Engineered a top-down RPG Android mobile game with a turn-based battle system targeting word association skills, contributing to the client group's 2nd Place finish in their department.
- Developed a companion teacher application connected to a shared database, enabling real-time monitoring and tracking of student gameplay data.
- Designed 16 in-game maps using multi-layered tile mapping, creating dynamic and visually structured game environments.

Easy tickIT (Web-System)

January 2025 - May 2025

Role: Front-end Lead

- Designed the complete UI/UX of the website covering all key pages, delivering a consistent and user-friendly interface across the entire platform.
- Led front-end development by translating UI/UX designs into a fully functional website, ensuring visual consistency and smooth user experience across all pages.
- Conducted quality assurance testing on the system, identifying and resolving issues to ensure the final product met functional and design standards before deployment.

The Last Chapter (Game)

November 2024 – December 2024

Role: Project Manager/ Developer

- Spearheaded task delegation and quality checks for a 7-member team, ensuring consistent output across all deliverables and earning the People's Choice Award among 15+ competing games at GameCon.
- Directed the entire game mechanics concept and real video footage used as visual assets, establishing the creative foundation and visual identity of the game.
- Developed 6 core game scenes including the Menu, Tutorial, three monster encounters, and Game Over sequence, delivering a complete and playable game experience.

SKILLS

Languages: Python, Java, C#, JavaScript, TypeScript, PHP, Dart | **Web/Mobile:** HTML, CSS, React.js, Vite, Flutter, React Native, Expo, REST API, Flask | **Database/Backend:** MySQL, Firebase , Supabase | **Automation:** n8n, Docker
Design/Game: Figma, Unity, Asprite | **Tools:** Git, GitHub, VS Code

EDUCATION

Pamantasan ng Lungsod ng Valenzuela (College)	Tongco St. Maysan, Valenzuela City
Bachelor of Science in Information Technology	2022 – 2026
• Dean’s Lister: 4 semesters (2nd–4th Year), GWA 1.13–1.45	

CERTIFICATIONS & AWARDS

Certification / Training	
• Developing AI Applications with Python and Flask — IBM, Coursera • Python for Data Science, AI & Development — IBM, Coursera • Generative AI: Prompt Engineering Basics — IBM, Coursera • Generative AI: Introduction and Applications — IBM, Coursera • Introduction to Artificial Intelligence (AI) — IBM, Coursera • Foundations of Project Management — Google, Coursera • Prompt Like an Engineer — Cisco Networking Academy • Introduction to Modern AI — Cisco Networking Academy	September 2026 August 2026
Awards & Competitions	
• 3rd Best Presentation, Rumini Capstone — 6th CEIT Research Colloquium 2026 • 3rd Place, Web Design Competition — ITlympics 2026 • 2nd Place, Python Programming Competition — ITlympics 2026 • People’s Choice Award, Let’s Roll — GameCon 2025	May 2026 March 2026 April 2025
Scholarships	
• OWWA–EDSP Scholarship, Education for Development Scholarship Program	November 2024 – May 2026
